INFORMED CONSENT TO CHIROPRACTIC TREATMENT

Doctors of Chiropractic, medical doctors, osteopathic physicians and physical therapists who use manual therapy techniques such as manipulation of the spine and or extremities are required to advise patients that, although extremely rare, there may be some risks associated with such treatment.

In particular on rare occasions, patients have experienced rib fractures, muscular strains, or ligamentous sprains following spinal adjustments. Some type of spinal adjustments of the neck leading to or contributing to complications including stroke. This has been the subject of tremendous disagreement within and out of the profession, with one prominent authority stating that at most there is a one in one million chance of a stroke occurring as a result of a chiropractic adjustment of the neck. We employ tests in our examination which are designed to identify such susceptibility to that kind of injury. There have also been rare reported cases of disc injuries in the time following manipulation of the spine, although no scientific study has ever demonstrated with certainty that disc injuries have been specifically resulted by such treatment.

Chiropractic treatment including manipulation has been the subject of governmental reports and multidisciplinary studies conducted over many years and have been demonstrated to be highly effective in treating spinal pain, headaches, nerve pain, and many other conditions. Chiropractic care contributes to your overall well being. The risks of injury or complications from chiropractic treatments are substantially lower than that associated with many medical or other treatments, medications, and procedures given for the same conditions.

Ancillary treatments recommended: Ice, Moist Heat Packs, Stretching/Strengthening Exercises, Massage Therapy, Electrical Muscle Stimulation (EMS), and Cold Laser Therapy.

Risks involved with the recommended ancillary treatments: Ice, Heat and Electrical Muscle Stimulations (EMS) can cause burning. The EMS can cause skin irritation underneath the active pads. Stretching/Strengthening Exercises and Decompression Spinal Traction can cause temporary post-treatment soreness or reflex muscle spasms. This list is not all inclusive.

PLEASE READ BEFORE SIGNING

I do not expect the doctor to be able to anticipate and explain all possible risks and complications. I wish to rely on the doctor to exercise judgment during the course of the treatment which the doctor feels at the time based on the facts then known, is in my best interests. I understand that the results are not guaranteed. I acknowledge that I have discussed or have had the opportunity to discuss with my chiropractor the nature and purpose of the chiropractic treatment which I am about to receive (including chiropractic manipulation) as well as the contents of this consent form. I consent to the chiropractic treatments offered or recommended to me by my chiropractor, including chiropractic manipulation.

APPOINTMENT CANCELLATION & NO SHOW POLICY

APPOINTMENTS

At Pure Chiropractic there is nothing more important than our commitment to your health. We take this responsibility very seriously. Please arrive on time for your appointments. Our doctors do their best to stay on schedule and we all respect your time. In an attempt to be consistent with this, we have an Appointment Cancellation Policy that allows us to schedule appointments for all patients. When an appointment is scheduled, that time has been set aside for you and, when it is missed, that time cannot be used to treat another patient.

CANCELLATION / NO SHOW POLICY

If you need to cancel or reschedule your appointment we kindly ask that you give us a <u>24-hour notice</u>. This policy allows other patients access to care when needed and to avoid the expense to our office due to late cancellations and no shows. We take your time very seriously and are committed to providing you with the highest level of care.

If you call with less than 24-hour notice or if you do not call at all, we reserve the right to bill you for the time we reserved especially for you. The Cancellation / No Show Fee is \$25 for chiropractic treatment visits and \$50 for chiropractic review of findings and new patient visits. We understand there are unpredictable situations that cannot be helped so please contact us to share your unique situation.

If you have any questions regarding this policy, please let our staff know and we will be glad to clarify any questions you have.

We thank you for your patronage.

I have read and understand the Appointment Cancellation / No Show Policy of Pure Chiropractic and I agree to be bound by its terms.

ASSIGNMENT OF PROCEEDS

(Agreement)

I understand that I remain personally responsible for the total amounts due to **Pure Chiropractic** for their services. This agreement does not constitute any consideration for this Office to await payments and it may demand payments from me immediately upon rendering services at its option. If this Office must take any action to collect an outstanding balance on my account, I will be responsible for payment and will reimburse **Pure Chiropractic** for all costs of such collection efforts, including, but not limited to, all court costs and all attorney fees.

This Agreement shall not be modified or revoked without the mutual written consent of **Pure Chiropractic** and myself. I hereby revoke any previously signed authorizations, whether executed at this office or any other office to the extent that the terms of those authorizations conflict with the terms of this Agreement.

TERMS OF ACCEPTANCE

When a patient seeks chiropractic health care and we accept a patient for such care, it is essential for both parties to be working towards the same objective.

Chiropractic has only one goal. It is important that each patient understand both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment.

Adjustment: An adjustment is the specific application of forces to facilitate the body's correction of vertebral subluxation. Our chiropractic method of correction is by specified adjustments of the spine.

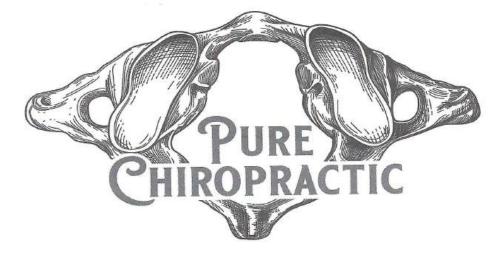

Health: A state of optimal physical, mental, and social wellbeing, not merely the absence of disease or infirmity.

<u>Vertebral Subluxation</u>: A misalignment of one or more of the 24 vertebra in the spinal column which causes alteration of nerve function and interferes with the transmission of mental impulses, resulting in a lessening of the body's innate ability to express its maximum health potential.

We do not offer to diagnose or treat any disease. We only offer to diagnose either vertebral subluxations or neuromusculoskeletal conditions. If during the course of a chiropractic spinal examination, however, we encounter nonchiropractic or unusual findings, we will advise you. If you desire advice, diagnosis, or treatment for those findings, we will recommend that you seek the services of another health care provider.

Regardless of what the disease is called, we do not offer to treat it, nor do we offer advice regarding treatment prescribed by others. Our only practice objective is to eliminate a major interference to the expression of the body's innate wisdom. Our only method is specific adjusting to correct vertebral subluxations. We may use other procedures, however, to help your body hold the adjustments.

procedures, no wever, to no.p your so	,
I,	, have read and fully understand the above statements.
I therefore accept chiropractic care	on this basis.
